MEMORANDUM FOR: Chief, Programs Division, ORR

25X1A ATTENTION: [REDACTED] Strategy and Trends Branch
THROUGH: Chief, Requirements Branch, Reconnaissance Group, CGS
FROM: Chief, CIA/PID (NPIC)
SUBJECT: Dimensions of Major Buildings at Operational Handling
Area, Emba Missile-Associated Facility, USSR
REFERENCES: (a) Requirement C-RR-4-81,684
(b) CIA/PID Project C 1293-64

1. This memorandum is in partial response to your requirement dated 7 August 1964 which requested information concerning several areas at the Missile-or-Space-Associated Facility at Emba, USSR.

25X1D 2. Attached herewith is a photo enlargement of the Operational Handling Area from [REDACTED], with an acetate overlay showing the dimensions that you requested of the six major buildings. The mensural data herein provided was computed by the photo interpreter using scale factors furnished by TID (NPIC). Measurements are ± 5 percent.

Building D, 180 by 70 feet, is the largest building in the area. This building has a longitudinal monitor roof and is a drive-through building. Buildings A, B, and C appear identical in size, each 155 by 65 feet, but only "A" is a drive-through building. Buildings B and C are enclosed in a common fence and apparently have a different function than "A". Buildings E and F, measuring 125 by 65 feet and 85 by 60 feet, respectively, are both drive-through buildings.

25X1A 3. The photo analyst on this project is [REDACTED] who may be contacted on extension 3410 should you have any further questions concerning this project.

4. This project is still in progress and is not considered to be complete.
